

LET'S GROW K-5

TCCS wants to partner with families to provide opportunities to foster independence in our students. Each quarter, students can choose a new option from the list below or pick their own goal and write it on the line provided. Once a student is able to perform the task proficiently, parents can sign off on that quarter's goal. We will check in with students at the end of each quarter to hear about their Let's Grow experience!
